Tennis, Football, Rugby and sport in general, Nature, Books

Specialized in sport physiotherapy, I help athletes reach their goals by working closely with medical and technical staff.

During my ten years long professional experience, I studied and practiced sports therapy in my own clinic and on the field, working with professional and amateur athletes.

I am a licensed Physical Therapist enrolled in the professional registry and have completed all 5 years of Osteopathy school. I use both PT and osteopathic techniques to build the most effective recovery path.

EMPLOYMENT HISTORY

Physiotherapist and Osteopath, Mercallo

April 2013 — Present

Private practice in my clinic "Studio di Fisioterapia FNZ", pain therapy, manual therapy with both athletes and non-athletes patients. Collaborations with different health care residences over the years.
